News From Craig.

—William R. Miles marketed a car of fat cattle, Monday. —Mrs. E. E. Weight was a passenger to Falls City, Neb., Sunday evening. —Mrs. Golda Furnish, of Fairfax, was the guest over Sunday of Dr. and Mrs. J. C. Ottman. —Preston Wise is reported sick at his home in Craig. Physician and friends apprehend no serious result. —Dudley Weddle, of St. Joseph, was in Craig, Saturday, looking after business and meeting his many friends. —Miss Grace Bailey, of near Oregon, was a visitor in our high school, last Thursday. She found things running smoothly since her last visit. —Mr. and Mrs. Clarence Bostwick arrived Saturday afternoon from Salt Lake City, Utah, to make an extended visit with friends and relatives in and near Craig.

—Mrs. James Lemar was brought home, Saturday, from the hospital in St. Joseph, where she underwent a very serious surgical operation. Her many acquaintances will rejoice to know that her recovery is practically assured.

—The third quarterly conference of the Craig circuit will convene at Elk Dale, next Saturday and Sunday. Presiding Elder Chas. R. Duncan will preach Saturday evening and Sunday morning. The business session will be held Saturday afternoon.

—Mrs. T. A. Ward entertained a guest, Wednesday of last week, in the person of Danny McColl, her two-year-old nephew, of Westboro. The parents of the youngster left him here while they journeyed on to St. Joseph, returning in the evening.

—Mrs. Karl T. Davis and children left for Breckenridge, last Thursday. The children have been exposed to the measles, and Mrs. Davis preferred to be near her mother when passing through the ordeal of nursing and caring for the little ones. Her stay in Breckenridge will be indefinite.

—The fifteen-month-old baby of Frank Robbins and wife, which was reported dangerously sick with the measles, died Monday evening. The best of doctors and the care of a trained nurse did all they could to fan the flame of life, but to no avail. This community grieves with the stricken parents.

—Jack Carmine, of Downs, Kansas, was here, several days, last week, visiting his brother-in-law, James Meador, west of town. Mr. Carmine was formerly a resident of Atchison county, near Fairfax, and has been visiting several sons, who are farmers in that vicinity, for several weeks. —Henry Tabbert, of LaCrosse, Wisconsin, has succeeded J. S. Miller as road master on this division. Mr. Tabbert supplied the place for several months last fall while Mr. Miller was superintending a piece of construction near Amazonia. He probably will make his headquarters at Corning.

—Dr. Robert E. Goodrich, pastor of the Francis Street Methodist church, St. Joseph, will preach the baccalaureate sermon for the graduating class in the Craig high school, Sunday night, May 13. Dr. Goodrich is reputed to be one of Missouri's most eloquent preachers and our people may look forward to a rare intellectual treat.

—Mr. N. B. Scott, who for many years has conducted a blacksmith and repair shop opposite the stock yards, went to Kansas City, Monday, to be initiated as a "Knight of the Grip." He will retain his residence headquarters in Craig for a time at least. Our business fraternity will miss the active interest Mr. Scott has in years passed displayed for the welfare of the community, but all wish him success in his new field of effort.

—J. S. Miller, our popular and efficient road master, was sent to Aurora, Illinois, to take charge of a division on the main line of the Burlington, last Thursday. While Mr. Miller has been residing in Corning, the people of Craig feel as though he was one of them, and because of his social companionship and the interest he has shown in promoting the best for the good of Craig, will regret to know of his removal, even though it be to greater activities and higher honors.

—Roy Henderson, better known to Craig people as "Little Roy Quimby," was renewing old friendships and acquaintances in Craig Sunday, after an absence of five or six years. Many of our people who took a little more than a passing interest in Roy, when he was a little lad running at large in Craig, will be delighted to learn that now as a young man, seventeen years old, he is employed in the cutting department of the Noyes-Norman Shoe Company, at St. Joseph, liked and favored by the managing heads in that progressive establishment.

—Four years ago the Methodist people on the Craig circuit, composed of Craig, Tarkio Chapel, Bethel and Elk Dale, contracted an \$1,100 debt for the purpose of remodeling the parsonage located in Craig. Two years ago Rev. Lockart engineered the payment of \$600, leaving \$500 and the interest, which Karl T. Davis, the present pastor, has the credit for making the final payments during the month of April. The people of this circuit may well be proud of their property, as it is classed above the average of parsonages, and it certainly compares favorably with the residence properties in Craig.

You Can Save Somebody's Darling, If—

You Will Screen the Baby! SWAT THE FLY! STARVE THE FLY!

THINK OF IT!

Flies and dirt double the amount of sickness among New York city's babies. This statement, made public by the department of social welfare of the New York Association For Improving the Condition of the Poor, is based on a two years' investigation in more than a thousand families. Don't let that fly get away! Kill him now!

GET AFTER THE FLIES.

That fly on your plate didn't wipe his feet when he came in. The chances are his last walk was in the filth of the street or the garbage pail. Pleasant, isn't it? Then why put it up with flies? Keep flies out of your home. Don't trade at stores that tolerate flies. Don't eat at restaurants in which there are flies.

Protect the Sleeping Baby.

When your children are out of doors and awake the fly is not so dangerous. You will very rarely see a fly on the face of a child walking or playing, but if your baby sleeps outdoors that is the danger time. He must be carefully covered with mosquito netting to protect him from the poisoned kiss.

Buzz! Buzz! Buzz! The fly that lives To fly away Will live to breed A million a day Kill Flies NOW!

REALIZE YOUR DANGER. SWAT THE FLY!

If you were to walk into a room and then be told that in it there were 7,000,000 chances of catching a deadly disease, how long would you linger? The chances are 100 to 1 that you would get out as quickly as possible. According to scientists and doctors, a fly may carry as many as 7,000,000 germs on its feet. Typhoid and tube colic are the most common of these germs. Kill the murderous insect.

Swat! Swat! Swat! When you wake up in the morning And a fly is buzzing near And you know he'll soon be hornin' Into your defenseless ear, Wait awhile until you spot him, Till you know he's off his guard, Then lift up your hand and swat him—Swat that buzzer good and hard!

When within your office busy You try hard to do your work And a fly makes you so dizzy 'Neath your desk you long to lurk, Pause until in range you've got him, Steel your hand, though mercy pleads, Take the office clock and swat him Right where Mary wore the beads!

There is lots of satisfaction In the course that I suggest, With each victim nerve to action To abate this insect pest. When you see a fly just pot him, Nail him as, of course, you should; Grab a baseball bat and swat him—Swat him while the swatting's good!

Kill the murderous fly!

When we dwell on the great war in Europe words fail us.

Yet statistics show that disease transmitted by the housefly kills more than armies!

Swat the fly! Starve the fly!

STARVE THE FLY.

STARVING the fly was added to the swatting of it in Paterson, N. J. The board of health set apart a day for householders to wrap up their food so that the housefly will fall of sustenance. It was even asked that all refuse food be well wrapped before it is put in garbage cans. In addition, every one of the 125,000 residents who was able to swat was asked to kill 200 flies.
